

## Central Pennsylvania's Choice for Masonry Restoration & Waterproofing Applications

Established in 2003, Eagle Ridge Contracting provides masonry restoration, joint sealants, water repellents, and protective coatings for both restoration and new construction projects. The staff averages over 20 years of experience in the industry, making Eagle Ridge Contracting your trusted source for all of your masonry restoration and waterproofing needs.

## What We Do

We've done it all: masonry and concrete restoration, joint sealants, protective coatings, foundation membranes, and leak repair. Our team is well-versed in every step of the restoration process, from beginning (consulting, estimating, budgeting, and design) through completion. No two restoration projects are the same and that's what makes our job so exciting! Our team is prepared to troubleshoot and lend suggestions to ensure the end result exceeds your expectations.

## Why Eagle Ridge Contracting?

Our clients are our number-one priority and we work to complete each project on-time and on-budget. Plus, our staff takes a proactive approach to deal with dust, noise, odors or other inconveniences that may occur during the project. Many restoration projects come with unforeseen circumstances. If this should occur, the Eagle Ridge Contracting staff will discuss possible solutions to resolve the issues in a timely manner. We address any pricing adjustments up front and strive to continually maintain our integrity and honesty throughout the project. Our completed work speaks for itself. You won't be disappointed!

### *In summary, Eagle Ridge Contracting offers:*

**Experience:** Our field workers and project managers average over 20 years of experience in the industry.

**Consistent Quality:** We are a smaller organization, which allows us to maintain a consistent level of craftsmanship. This has allowed us to generate repeat business from many customers over the years. Our field workers are cross trained in the various types of work that we perform.

**Expertise:** We have both office staff and field personnel who have successfully completed projects ranging from the simple to complex involving various types of restoration and waterproofing applications.

## Who We Work With

We work with a variety of businesses and organizations on both new buildings and existing structures. These include commercial, industrial, institutional, and religious facilities.

**Call our staff today to schedule  
a consultation: 570.758.2085**

### *We also work with:*

- Universities
- Churches
- Corporations
- Hospitals
- Businesses
- Historic Buildings

*Governmental grants may be available for buildings on the historical register and those within a historical district.*

## Chimney Renovation

This project involved the cutting out and repointing of deteriorated mortar joints in the chimneys of a historic building. Difficult access to the chimneys required elaborate scaffolding. Special considerations were taken to keep the building open and safe for pedestrian traffic.

## Steps & Landing Restoration

*At Bucknell University*

Deteriorated sandstone steps and landings were replaced with reinforced, precast concrete slabs matched to the original stone. Meanwhile, stone walls were carefully disassembled, restored and rebuilt.
